

Order no.: REF-7218535

Mobile container fire protection education

Specification

Business division
MUNK
Rettungstechnik

Order no.
REF-7218535

Facts

- Design:
- Structure in the look of a fire engine in RAL 3000
- Electrical cabling 12 V with control panel and MagCode connector
- Including delivery and cabling of various LED flashers
- For holding:
- 1x flatbed hand truck as chassis
- 1x Gardena rapid deployment hose reel with C-coupling at the rear for supply
- 1x fire-fighting equipment for fire protection education e.g. pressure hoses, fittings, radio equipment

Description

With the mobile containers for fire protection education from Munk Rettungstechnik, the future heroes of tomorrow can practise realistically how to act quickly and safely in an emergency. Specially developed for children's fire brigades, this mobile container offers everything that young rescuers need to feel like the grown-ups. The container has a robust design with high-strength aluminium profiles and weatherproof wooden screen printing plates.

The mobile container is visually designed as a cool fire engine and has an 'original' blue light system and a signal horn. It offers different equipment variants for realistic exercises: Type 1 can be closed with tarpaulins and press studs, while type 2 is equipped with a roller shutter and espagnolette lock. Both versions have an integrated pump

- Various versions available: Children's fire brigade / youth fire brigade, THW youth, rescue service youth

control station, which gives the children a realistic feeling of being in action.

Versions for THW youth and rescue service youth

In addition to the popular mobile containers for children's fire brigades, Munk Rettungstechnik has also developed innovative solutions for the youth groups of the German Federal Agency for Technical Relief (THW) and the rescue services. The THW version of the mobile container comes in the familiar dark blue colour and is also equipped with a blue light and horn. It contains extensive technical equipment, including hand lamps, cut-off grinders, shovels, brooms and scaling ladders as well as special children's chainsaws with an acoustic signal - everything the THW's junior staff need for realistic exercises.

For the next generation of rescue and medical services, Munk offers a mobile container with an ambulance look that optimally prepares the children for their future tasks. The equipment includes first aid kits including first aid material, Euro containers for storing high-visibility waistcoats and sufficient space for additional equipment as required.

With these specially developed mobile containers, Munk is promoting the work of rescue and aid organisations with children and young people in a unique way. The young rescuers can playfully practise for emergencies and have lots of fun in the process - always with the feeling that they are acting like the big role models.

Scope of supply

- Mobile container: 1 x

Information on sustainability criteria

- Corporate certification: ISO 9001
- Corporate certification: ISO 14001
- Corporate certification: EN 1090
- Corporate certification: EcoVadis
- RoHS
- REACH
- The MUNK Group complies with a Code of Conduct
- The Supply Chain Act does not apply due to our size
- The materials used are listed in the technical specification
- Resource-saving production: own photovoltaic systems
- Energy-efficient consumption during production: LED lighting
- Repairability, durability and quality: 15-year warranty on series products made in Germany
- Recyclability: Our products are mostly made of aluminium, steel or wood and can be fed directly into the recycling process.
- Socially acceptable working conditions in production: fair wages, gender equality
- Economical and recyclable packaging: no use of polystyrene, predominantly use of wood and cardboard, small amounts of plastic
- No health hazards for the users

Added value

"Our mobile containers for children's fire brigades have been so well received by the emergency services of tomorrow that we now also want to help the next generation of THW and rescue services to prepare for emergency operations at an early stage. It's great that we, as a premium supplier, are promoting and supporting the work of children and young people in rescue and relief organisations on so many levels with our new mobile containers. The young heroes will certainly have a lot of fun practising with the mobile containers and feel like their big colleagues," emphasises Ferdinand Munk, owner and Managing Director of the Munk Group.

Reference model

With our reference models, we provide you with a selection of individual roll containers to illustrate the variety and possibilities of our designs. We would also be happy to manufacture mobile containers for your needs - [please contact us!](#)
